INNERSPACE

CHESHIRE

We design, We make, We fit We bring joy

Innerspace Cheshire is based in Whitchurch in the North West of England where we make products that are kind to people, the planet and animals.

Our local, dedicated team of makers hand craft our product range at our workshop. And our installation team travel up and down the country to fit all products nationwide.

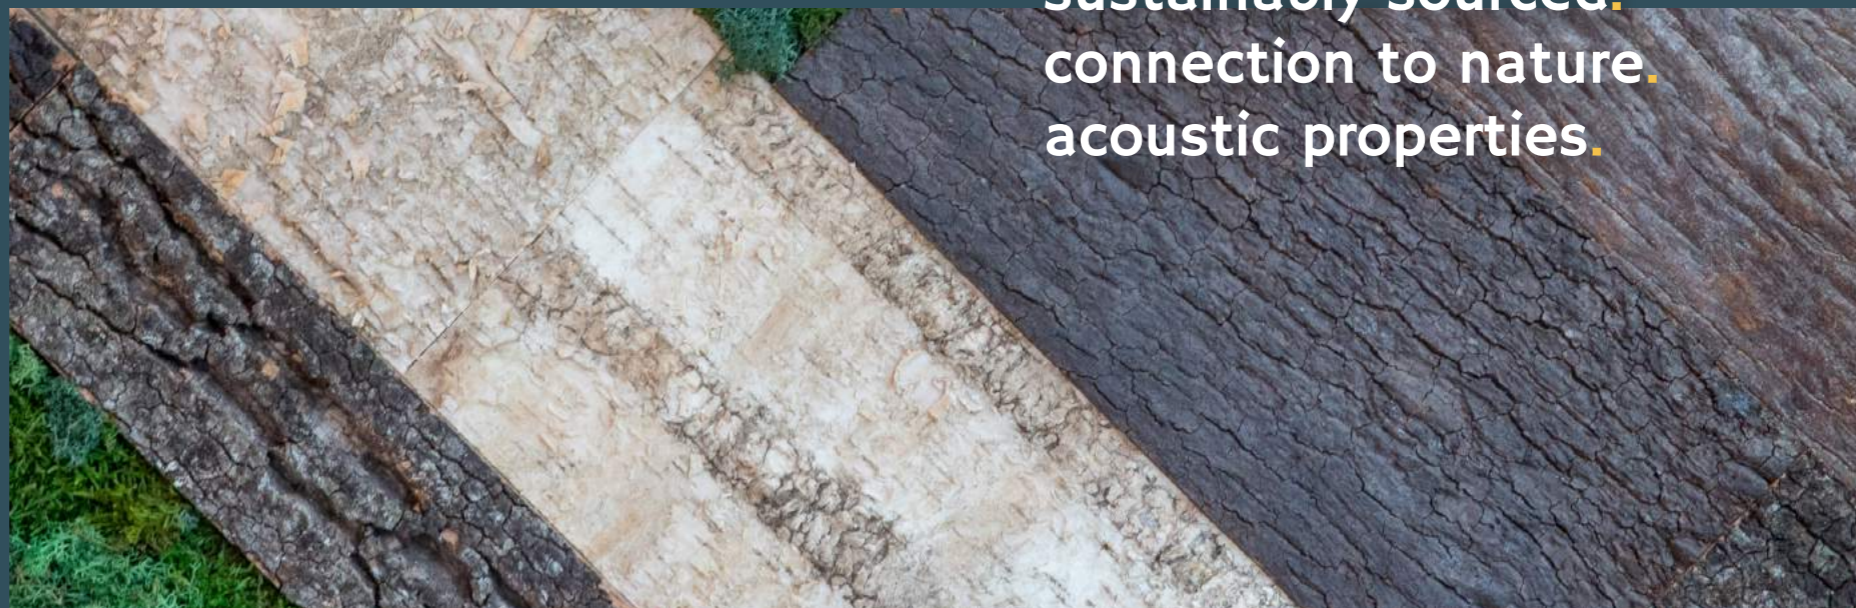

Barkwall.

Innerspace Cheshire **Barkwall** is used in interior spaces to create a connection to the outdoors and bring a touch of the forest and wilderness inside. Every panel has interesting natural colours and textures – a perfect material choice to break up monotonous surfaces.

Every sheet of bark is sustainably sourced. The raw bark is then formed into panels in our local workshop.

Barkwall.birch

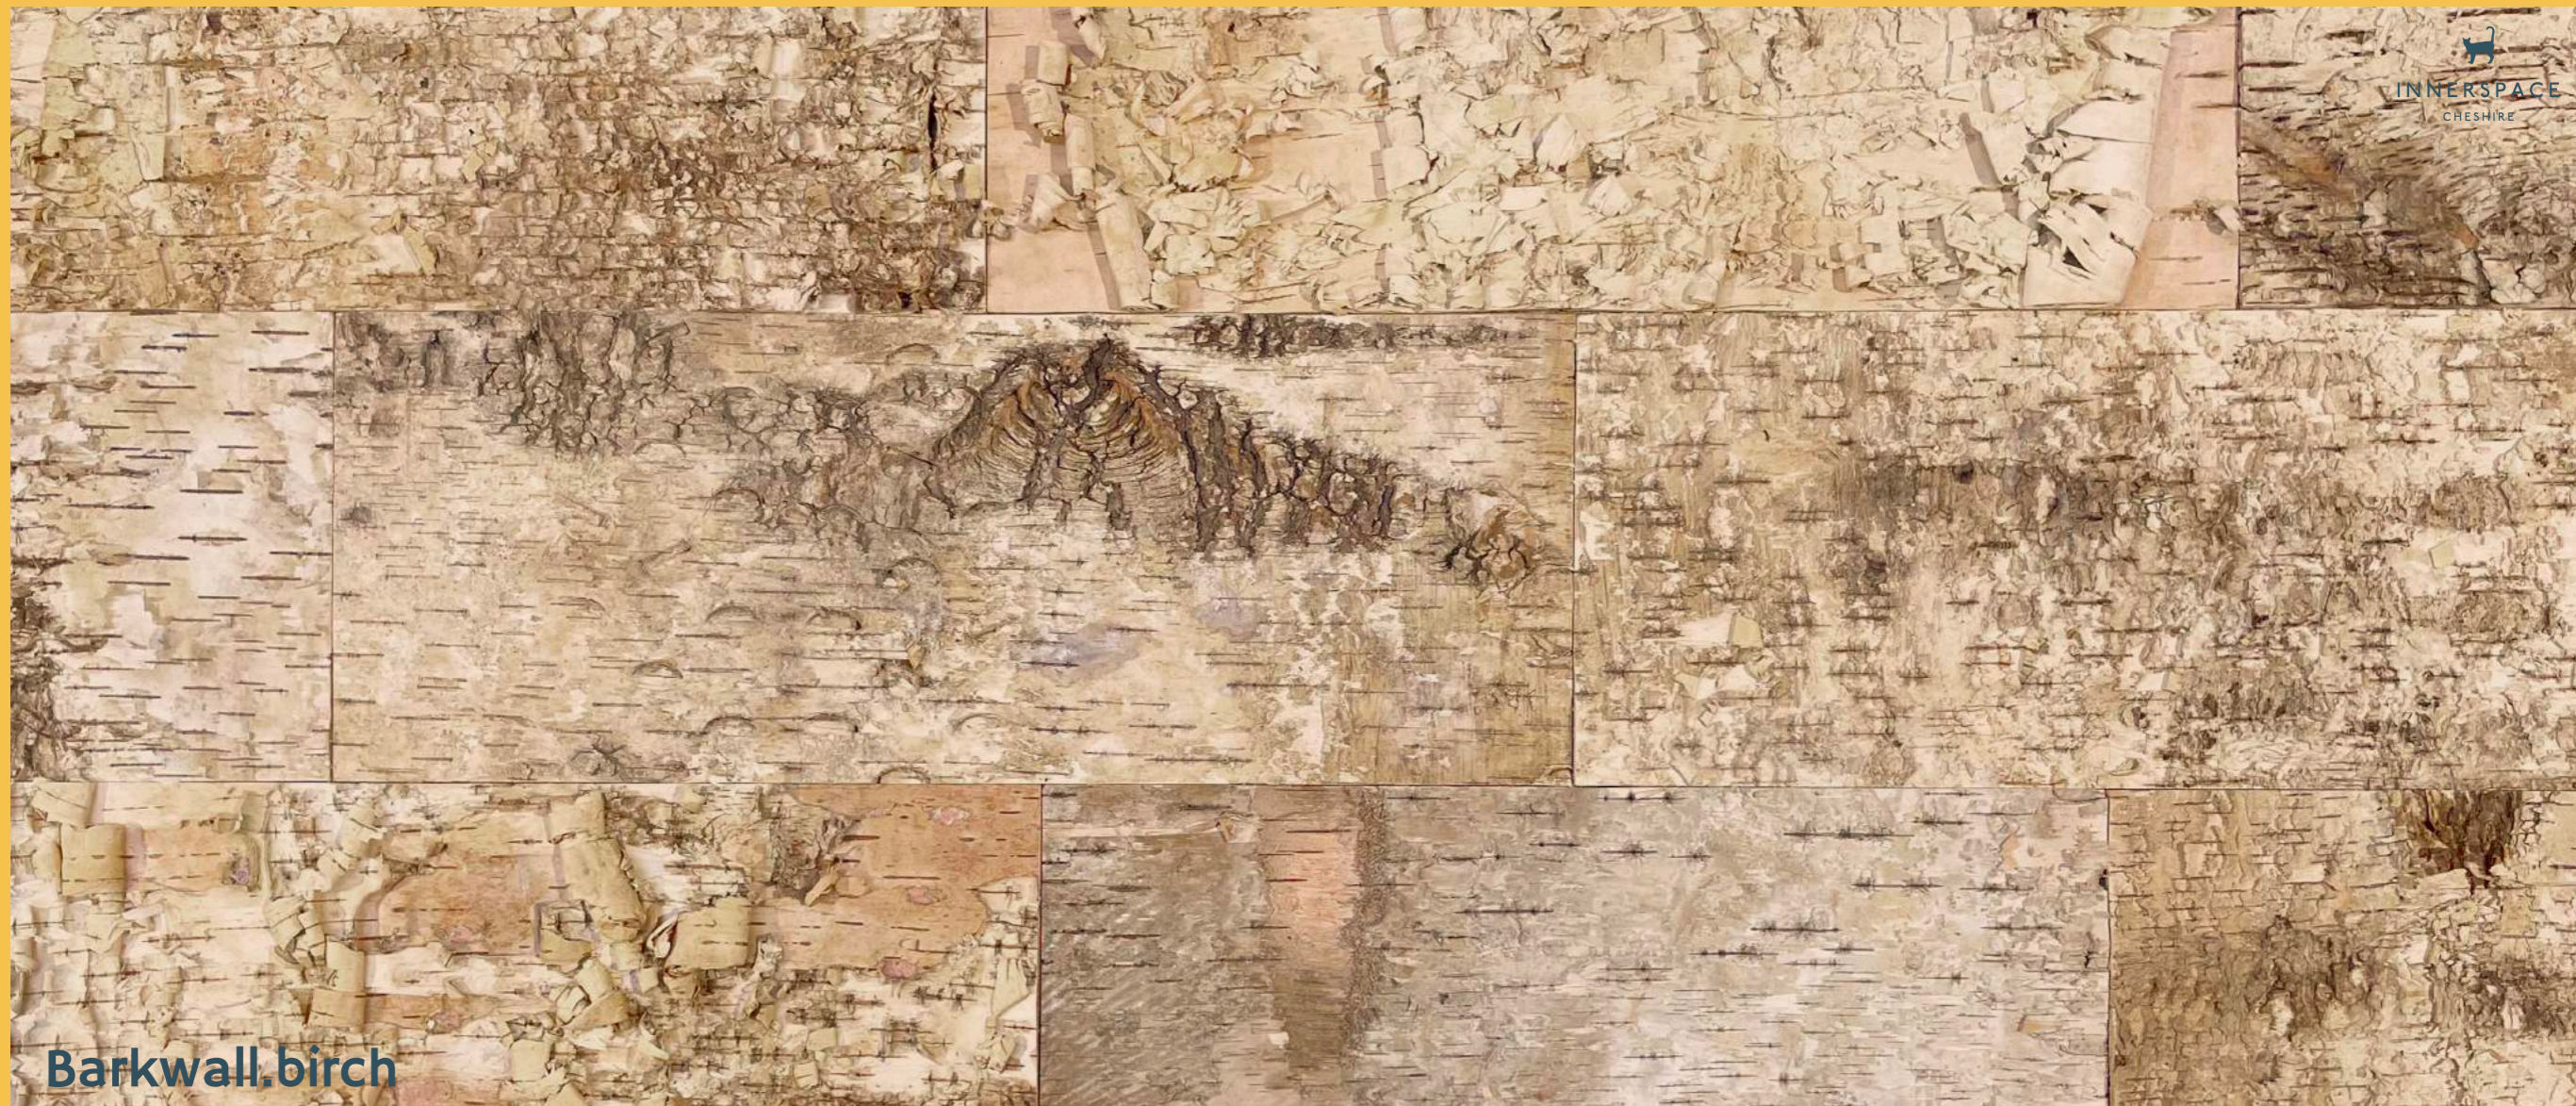

BIOPHILIA RANGE

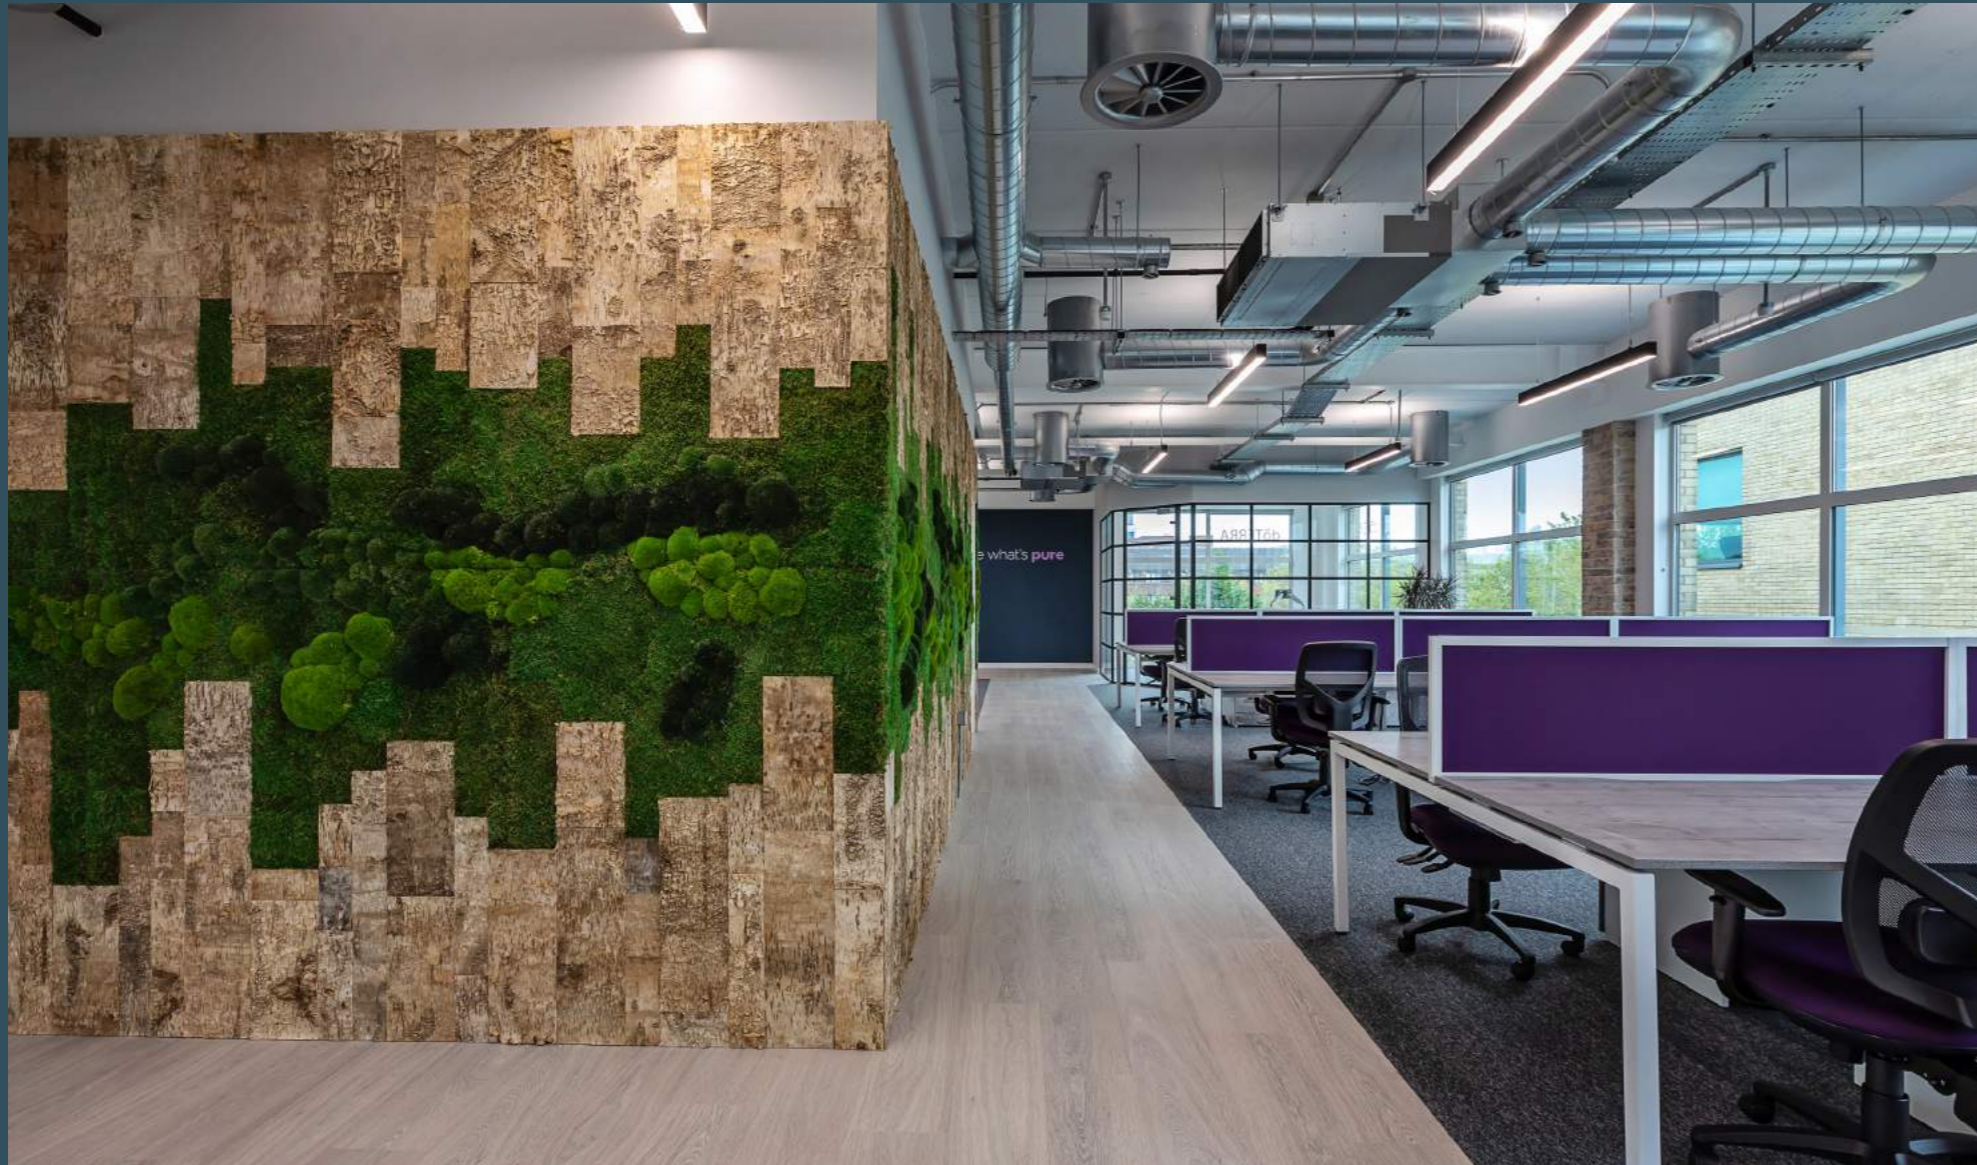

Barkwall birch panels have a subtle patterns, textures and light colour tones. The natural beauty of birch bark adds a rustic and organic charm to various applications. Harvesting birch bark is a sustainable practice, as it doesn't harm the tree.

Barkwall.cork

BIOPHILIA RANGE

Barkwall cork panels are a lightweight material, making it easy to handle and install. With its gentle and pliable texture, cork offers exceptional thermal and acoustic insulation properties. The combination of practical advantages and its earthy, natural surface makes it an wall finish in interior spaces.
