

# Naturemoss.**Brochure**

BIOPHILIA RANGE

HEADLANDS - SPECIAL EDITION

INNERSPACE  
CHESHIRE

## We design, We make, We fit We bring joy

Innerspace Cheshire is based in Whitchurch in the North West of England where we make products that are kind to people, the planet and animals.

Our local, dedicated team of makers hand craft our product range at our workshop. And our installation team travel up and down the country to fit all products nationwide.

## Naturemoss.

Innerspace Cheshire's **naturemoss** catalogue presents real preserved moss walls, with the objective of strengthening the connection between individuals and the natural world. It offers a diverse selection of products that exemplify the inherent versatility of moss!

You get the biophilic design advantages of living wall systems without the expense of watering systems and regular maintenance. And you get the convenience of faux plant systems without the sustainability and authenticity compromises.

no watering.  
no sunlight.  
no maintenance.

Naturemoss Headlands is more of a piece of art than a moss wall.

It takes the form of swooping organic shapes in different moss species and colours as well as our Natureverde preserved foliage.

The design scales well to small-scale framed pieces as well as full height feature walls.

Signage pops beautifully against Naturemoss Headlands.

We can supply and fit the signage as well as any framing required to realise your project.

Aspen

We'd love to hear from you.
