BIOPHILIA RANGE

HOPE CIRCLES - SPECIAL EDITION

INNERSPACE

CHESHIRE

We design, We make, We fit We bring joy

Innerspace Cheshire is based in Whitchurch in the North West of England where we make products that are kind to people, the planet and animals.

Our local, dedicated team of makers hand craft our product range at our workshop. And our installation team travel up and down the country to fit all products nationwide.

Naturemoss.

Innerspace Cheshire's **naturemoss** catalogue presents real preserved moss walls, with the objective of strengthening the connection between individuals and the natural world. It offers a diverse selection of products that exemplify the inherent versatility of moss!

You get the biophilic design advantages of living wall systems without the expense of watering systems and regular maintenance. And you get the convenience of faux plant systems without the sustainability and authenticity compromises.

no watering.
no sunlight.
no maintenance.

The Hope Circles are named after Leanne, their designer.

She chose to combine a slim metal frame with several species of Naturemoss and Natureverde preserved foliage as well as slabs of naturally figured timber.

We can manufacture your own unique pieces with your own interpretation and style.

We'd love to hear from you.
